Message from the Guest Editor

This Special Issue of *Metabolites* is a conference issue dedicated to Virtual Podium 2021 Asia Pacific—Proteomics, Metabolomics and Lipidomics. For this Special Issue, we particularly, but not exclusively, welcome papers presented at or resulting from the Virtual Podium 2021 Asia Pacific—Proteomics, Metabolomics and Lipidomics conference that took place from 29 November to 2 December 2021. The focus of this issue is topics relevant to proteomics, metabolomics and lipidomics science. More information about the Virtual Podium 2021 Asia Pacific conference can be found at

About the Journal

Message from the Editor-in-Chief

The metabolome is the result of the combined effects of genetic and environmental influences on metabolic processes. Metabolomic studies can provide a global view of metabolism and thereby improve our understanding of the underlying biology. Advances in metabolomic technologies have shown utility for elucidating mechanisms which underlie fundamental biological processes including disease pathology. *Metabolites* is proud to be part of the development of metabolomics and we look forward to working with many of you to publish high quality metabolomic studies.
