

Special Issue

Investigating the Impact of Teas on Metabolic Disorders: Insights into Underlying Mechanisms and Therapeutic Potential

Message from the Guest Editors

This Special Issue will showcase articles that thoroughly explore the mechanisms responsible for these beneficial effects and rigorously evaluate the therapeutic potential of teas in the management of metabolic disorders. The articles included will cover a broad range of topics, from the biochemical properties of teas to clinical studies that gauge their effectiveness. By shedding light on the role of teas in promoting metabolic health, this Special Issue will contribute to the development of innovative therapeutic strategies, ultimately leading to improved global health outcomes.

Guest Editors

Dr. Ran Wei

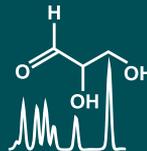

Department of Tea Science, Zhejiang Agriculture and Forestry University, Hangzhou 311300, China

Prof. Dr. Michał Tomczyk

Department of Pharmacognosy, Faculty of Pharmacy with the Division of Laboratory Medicine, Medical University of Białystok, ul. Mickiewicza 2a, 15-230 Białystok, Poland

Deadline for manuscript submissions

30 November 2025

About the Journal

Message from the Editor-in-Chief

The metabolome is the result of the combined effects of genetic and environmental influences on metabolic processes. Metabolomic studies can provide a global view of metabolism and thereby improve our understanding of the underlying biology. Advances in metabolomic technologies have shown utility for elucidating mechanisms which underlie fundamental biological processes including disease pathology. *Metabolites* is proud to be part of the development of metabolomics and we look forward to working with many of you to publish high quality metabolomic studies.

Editor-in-Chief

Dr. Amedeo Lonardo
Internal Medicine, Ospedale Civile di Baggiovara, Azienda Ospedaliero-Universitaria, 41126 Modena, Italy

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Biochemistry and Molecular Biology) / CiteScore - Q2 (Endocrinology, Diabetes and Metabolism)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 14.4 days after submission; acceptance to publication is undertaken in 3.6 days (median values for papers published in this journal in the first half of 2025).
