

## Special Issue

# Plant Biotic and Abiotic Stress Responses and Tolerance: Phytohormonal and Metabolic Insights

### Message from the Guest Editors

This Special Issue is a unique opportunity to delve into the current and future perspectives on phytohormonal and metabolic insights of plant biotic and abiotic stress responses and tolerance. We welcome original articles, short communications, reviews and perspectives that explore recent advances in plant stress physiology. The focus is on potential new agricultural sustainable solutions that can enhance crop productivity and stress tolerance in both conventional and protected crop production systems.

## About the Journal

### Message from the Editor-in-Chief

The metabolome is the result of the combined effects of genetic and environmental influences on metabolic processes. Metabolomic studies can provide a global view of metabolism and thereby improve our understanding of the underlying biology. Advances in metabolomic technologies have shown utility for elucidating mechanisms which underlie fundamental biological processes including disease pathology. *Metabolites* is proud to be part of the development of metabolomics and we look forward to working with many of you to publish high quality metabolomic studies.

---

### Editor-in-Chief

Dr. Amedeo Lonardo

Internal Medicine, Ospedale Civile di Baggiovara, Azienda Ospedaliero-Universitaria, 41126 Modena, Italy

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q2 (Biochemistry and Molecular Biology) / CiteScore - Q2 (Endocrinology, Diabetes and Metabolism)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 14.4 days after submission; acceptance to publication is undertaken in 3.6 days (median values for papers published in this journal in the first half of 2025).
