

Special Issue

Determination and Analysis of Known and Unknown Metabolites in NMR-Based Metabolomics

Message from the Guest Editors

This Special Issue of *Metabolites*, "Determination and Analysis of Known and Unknown Metabolites in NMR-Based Metabolomics", will be dedicated to publishing a wide range of methods and applications of NMR-Based Metabolomics to various research fields with an emphasis on improving the performance of the determination and analysis of known and unknown metabolites. Highly desired researches also include those on experimental and computational approaches to improve the identification and analysis of known and unknown metabolites using hybrid LC-MS/NMR methods.

Guest Editors

Dr. Cheng Wang

Department of Biostatistics, School of Public Health, Cheeloo College of Medicine, Shandong University, Jinan 250002, China

Prof. Dr. Donghai Lin

Department of Chemical Biology, College of Chemistry and Chemical Engineering, Xiamen University, Xiamen 361005, China

Deadline for manuscript submissions

closed (20 October 2023)

About the Journal

Message from the Editor-in-Chief

The metabolome is the result of the combined effects of genetic and environmental influences on metabolic processes. Metabolomic studies can provide a global view of metabolism and thereby improve our understanding of the underlying biology. Advances in metabolomic technologies have shown utility for elucidating mechanisms which underlie fundamental biological processes including disease pathology. *Metabolites* is proud to be part of the development of metabolomics and we look forward to working with many of you to publish high quality metabolomic studies.

Editor-in-Chief

Dr. Amedeo Lonardo
Internal Medicine, Ospedale Civile di Baggiovara, Azienda Ospedaliero-Universitaria, 41126 Modena, Italy

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Endocrinology, Diabetes and Metabolism)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.7 days after submission; acceptance to publication is undertaken in 3.6 days (median values for papers published in this journal in the second half of 2025).
