

Special Issue

Obesity and Metabolic Health, 2nd Edition

Message from the Guest Editors

We are pleased to announce the launch of a new Special Issue, "Obesity and Metabolic Health, 2nd Edition", a continuation of a previously successful Special Issue.

This Special Issue aims to compile the most recent and cutting-edge data on the molecular and cellular adaptations that contribute to obesity and its metabolic consequences. We particularly welcome submissions that shed light on novel therapeutic targets or interventions with the potential to improve metabolic health.

We welcome the submission of original research articles and reviews focusing on, but not limited to, the following topics:

- Neuro-immune metabolism;
- CNS-peripheral organ communication;
- Adipose tissue inflammation;
- Gut microbiota and obesity;
- Epigenetic regulation in obesity;
- Neuroendocrine control of metabolism;
- Pharmacological interventions for obesity;
- Protective effects of bioactive compounds and dietary components.

Guest Editors

Dr. Natalia Ferreira Mendes

School of Medical Sciences, Department of Translational Medicine (Section of Pharmacology), University of Campinas, Campinas 13083-887, Brazil

Dr. Eliana Pereira De Araújo

School of Nursing, University of Campinas, Campinas 13083-887, Brazil

Deadline for manuscript submissions

25 September 2026

About the Journal

Message from the Editor-in-Chief

The metabolome is the result of the combined effects of genetic and environmental influences on metabolic processes. Metabolomic studies can provide a global view of metabolism and thereby improve our understanding of the underlying biology. Advances in metabolomic technologies have shown utility for elucidating mechanisms which underlie fundamental biological processes including disease pathology. *Metabolites* is proud to be part of the development of metabolomics and we look forward to working with many of you to publish high quality metabolomic studies.

Editor-in-Chief

Dr. Amedeo Lonardo

Internal Medicine, Ospedale Civile di Baggiovara, Azienda Ospedaliero-Universitaria, 41126 Modena, Italy

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Biochemistry and Molecular Biology) / CiteScore - Q2 (Endocrinology, Diabetes and Metabolism)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 14.4 days after submission; acceptance to publication is undertaken in 3.6 days (median values for papers published in this journal in the first half of 2025).
