

Special Issue

Metabolomics 2021 Online

Message from the Guest Editors

This Special Issue of *Metabolites* is the conference issue dedicated to **Metabolomics 2021 Online**. For this Special Issue, we particularly, but not exclusively, welcome papers presented at or resulting from **Metabolomics 2021 Online**, the second virtual conference of the Metabolomics Society that took place from 22–24 June 2021. The focus of this issue is topics relevant to metabolomic science. More information about the **Metabolomics 2021 Online** conference can be found at: <https://metabolomics2021.org/>. We look forward to reading your papers!

About the Journal

Message from the Editor-in-Chief

The metabolome is the result of the combined effects of genetic and environmental influences on metabolic processes. Metabolomic studies can provide a global view of metabolism and thereby improve our understanding of the underlying biology. Advances in metabolomic technologies have shown utility for elucidating mechanisms which underlie fundamental biological processes including disease pathology. *Metabolites* is proud to be part of the development of metabolomics and we look forward to working with many of you to publish high quality metabolomic studies.

Editor-in-Chief

Dr. Amedeo Lonardo

Internal Medicine, Ospedale Civile di Baggiovara, Azienda Ospedaliero-Universitaria, 41126 Modena, Italy

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Biochemistry and Molecular Biology) / CiteScore - Q2 (Endocrinology, Diabetes and Metabolism)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 14.4 days after submission; acceptance to publication is undertaken in 3.6 days (median values for papers published in this journal in the first half of 2025).
