

Special Issue

Metabolite Profiling of Novel Psychoactive Substances

Message from the Guest Editors

This Special Issue of *Metabolites* is dedicated to studies on the metabolism of NPSs. This includes, but is not limited to, the identification of NPS metabolite biomarkers through in vitro (e.g., hepatocyte or liver microsome incubations) or in vivo models (e.g., controlled administration to rats), the reporting of authentic clinical or forensic cases with metabolite identification/quantification in biological specimens, the development of new analytical approaches for NPS metabolite profiling, and literature reviews on NPS metabolism.

Guest Editors

Dr. Jeremy Carlier

Department of Biomedical Sciences and Public Health, Marche Polytechnic University, 60121 Ancona, Italy

Prof. Dr. Volker Auwärter

Institute of Forensic Medicine, Medical Center-University of Freiburg, 79098 Freiburg, Germany

Deadline for manuscript submissions

30 September 2025

About the Journal

Message from the Editor-in-Chief

The metabolome is the result of the combined effects of genetic and environmental influences on metabolic processes. Metabolomic studies can provide a global view of metabolism and thereby improve our understanding of the underlying biology. Advances in metabolomic technologies have shown utility for elucidating mechanisms which underlie fundamental biological processes including disease pathology. *Metabolites* is proud to be part of the development of metabolomics and we look forward to working with many of you to publish high quality metabolomic studies.

Editor-in-Chief

Dr. Amedeo Lonardo

Internal Medicine, Ospedale Civile di Baggiovara, Azienda Ospedaliero-Universitaria, 41126 Modena, Italy

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Biochemistry and Molecular Biology) / CiteScore - Q2 (Endocrinology, Diabetes and Metabolism)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 14.4 days after submission; acceptance to publication is undertaken in 3.6 days (median values for papers published in this journal in the first half of 2025).
