Women's Special Issue Series: Metabolomic Profiling Technology

Message from the Guest Editors

We kindly invite researchers to contribute to the special edition, "Women's Special Issue Series: Metabolomic Profiling Technology". This Special Issue is dedicated to celebrating the significant achievements of women scientists in the field of Metabolomic Profiling Technology. The Special Issue editors welcome the submission of original research articles, short communication, reviews, and other types of contributions by all generations of scientists. We encourage articles in which the lead and/or corresponding authors are women. However, we understand most of the research work has been done by a great team of researchers from different genders, and we welcome submissions from all authors, irrespective of gender.

Guest Editors

Dr. Thusitha W. Rupasinghe

School of BioSciences, University of Melbourne, Parkville, VIC 3052, Australia

Dr. RuAngelie Edrada-Ebel

Strathclyde Institute of Pharmacy and Biomedical Sciences, University of Strathclyde, Glasgow G4 0RE, UK

Deadline for manuscript submissions

31 December 2025

About the Journal

Message from the Editor-in-Chief

The metabolome is the result of the combined effects of genetic and environmental influences on metabolic processes. Metabolomic studies can provide a global view of metabolism and thereby improve our understanding of the underlying biology. Advances in metabolomic technologies have shown utility for elucidating mechanisms which underlie fundamental biological processes including disease pathology. *Metabolites* is proud to be part of the development of metabolomics and we look forward to working with many of you to publish high quality metabolomic studies.

Editor-in-Chief

Dr. Amedeo Lonardo

Internal Medicine, Ospedale Civile di Baggiovara, Azienda Ospedaliero-Universitaria, 41126 Modena, Italy

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Biochemistry and Molecular Biology) / CiteScore - Q2 (Endocrinology, Diabetes and Metabolism)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 14.4 days after submission; acceptance to publication is undertaken in 3.6 days (median values for papers published in this journal in the first half of 2025).
