

Electrochemical Corrosion and Protection of Steels and Alloys

Guest Editors:

Prof. Dr. Citlalli Gaona-Tiburcio

Dr. José Guadalupe Chacón-Nava

Prof. Dr. Facundo Almeraya-Calderón

Deadline for manuscript
submissions:
closed (20 November 2023)

Message from the Guest Editors

This Special Issue on Electrochemical Corrosion and Protection of Steels and Alloys focuses on current trends in electrochemical corrosion science, engineering, and technology and aims to cover recent research studies related to metal and alloy performance used in the industry, addressing electrochemical techniques, corrosion protection methods, corrosion mechanisms, simulation and modeling, as well as failure analysis case studies. All articles related to the broad spectrum of materials behavior used in industry and corrosion protection methods are welcome. We hope that this Special Issue will provide useful information for the scientific community working in this exciting field of corrosion.

Message from the Editor-in-Chief

Metallic materials play a vital role in the economic life of modern societies; contributions are sought on fresh developments that enhance our understanding of the fundamental aspects related to the relationships between processing, properties and microstructure – disciplines in the metallurgical field ranging from processing, mechanical behavior, phase transitions and microstructural evolution, nanostructures, as well as unique metallic properties – inspire general and scholarly interest among the scientific community.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Inspec, Ei Compindex, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (Metallurgy and Metallurgical Engineering) / CiteScore - Q1 (Metals and Alloys)
