Special Issue

10th Anniversary of Metals: Metallurgy and Metal Technology

Message from the Guest Editors

Metals (ISSN 2075-4701) is a peer-reviewed, openaccess journal founded in 2011. With a first impact factor of 0.883 in 2015, *Metals* has experienced tremendous growth in terms of the number and quality of scientific publications. Now, *Metals* is ranking among the top international journals in the field of metallurgy and metallurgy engineering with an impact factor of 2.259. To celebrate the 10th anniversary of *Metals*, we are currently organizing a Special Issue to commemorate this important milestone. To highlight this anniversary, we will be editing a Special Issue that will gather various topics related to metallurgy and metal technology. All scholars in the community are invited to submit original articles and critical reviews on any of the topics. Please also encourage any of your colleagues who may be interested to submit manuscripts. We expect that this Issue will attract considerable attention, as we prepare to celebrate the excellent scientific contributions of Metals over the past 10 years.

Guest Editors

Prof. Dr. Hugo F. Lopez

Prof. Dr. Bernd Friedrich

Prof. Dr. Christof Sommitsch

About the Journal

Message from the Editor-in-Chief

Metallic materials play a vital role in the economic life of modern societies; contributions are sought on fresh developments that enhance our understanding of the fundamental aspects related to the relationships between processing, properties and microstructure – disciplines in the metallurgical field ranging from processing, mechanical behavior, phase transitions and microstructural evolution, nanostructures, as well as unique metallic properties – inspire general and scholarly interest among the scientific community.

Editor-in-Chief

Prof. Dr. Yong Zhang

Beijing Advanced Innovation Center of Materials Genome Engineering, State Key Laboratory for Advanced Metals and Materials, University of Science and Technology Beijing, 30 Xueyuan Road, Beijing 100083, China

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), Inspec, Ei Compendex, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Metallurgy and Metallurgical Engineering) / CiteScore - Q1 (Metals and Alloys)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
