# **Special Issue**

# Recent Advances in Metal-Ion Batteries

# Message from the Guest Editor

This Special Issue aims to compile innovative research and insights on the recent advancements in metal-ion batteries, covering fundamental understanding, material design, fabrication techniques, characterization methods and practical applications. Topics of interest include the following: Novel electrode materials for metal-ion batteries; Advanced electrolyte formulations and additives; Advanced electrode binders; Strategies for enhancing battery performance, efficiency or safety; Insights into metal-ion battery operation and degradation mechanisms; Advanced characterization techniques for battery materials and interfaces; Environmental and sustainability aspects of metal-ion battery technologies; Recycling of spent materials used in metal-ion batteries

# **About the Journal**

# Message from the Editor-in-Chief

Metallic materials play a vital role in the economic life of modern societies; contributions are sought on fresh developments that enhance our understanding of the fundamental aspects related to the relationships between processing, properties and microstructure – disciplines in the metallurgical field ranging from processing, mechanical behavior, phase transitions and microstructural evolution, nanostructures, as well as unique metallic properties – inspire general and scholarly interest among the scientific community.

#### Editor-in-Chief

## Prof. Dr. Yong Zhang

Beijing Advanced Innovation Center of Materials Genome Engineering, State Key Laboratory for Advanced Metals and Materials, University of Science and Technology Beijing, 30 Xueyuan Road, Beijing 100083, China

### **Author Benefits**

## **High Visibility:**

indexed within Scopus, SCIE (Web of Science), Inspec, Ei Compendex, CAPlus / SciFinder, and other databases.

## **Journal Rank:**

JCR - Q2 (Metallurgy and Metallurgical Engineering) / CiteScore - Q1 (Metals and Alloys)

# **Rapid Publication:**

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
