

Special Issue

Science, Characterization and Technology of Joining and Welding

Message from the Guest Editor

Joining, i.e., welding, is an essential requirement in manufacturing and assembly processes and is classified as a secondary manufacturing process. This Special Issue of Metals invites technical and review papers on, but not limited to, different aspects of joining and welding, including welding technologies (i.e., fusion based welding and solid-state welding), characterization, metallurgy and materials science, quality control, design and numerical simulation. This Special Issue also includes the joining of different materials, including metal and non-metals (polymers and composites). Papers on other methods of joining, other than welding, including soldering, brazing, adhesive bonding, accumulative roll bonding, etc., are also welcomed in this Special Issue.

About the Journal

Message from the Editor-in-Chief

Metallic materials play a vital role in the economic life of modern societies; contributions are sought on fresh developments that enhance our understanding of the fundamental aspects related to the relationships between processing, properties and microstructure – disciplines in the metallurgical field ranging from processing, mechanical behavior, phase transitions and microstructural evolution, nanostructures, as well as unique metallic properties – inspire general and scholarly interest among the scientific community.

Editor-in-Chief

Prof. Dr. Yong Zhang

Beijing Advanced Innovation Center of Materials Genome Engineering,
State Key Laboratory for Advanced Metals and Materials, University of
Science and Technology Beijing, 30 Xueyuan Road, Beijing 100083,
China

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), Inspec, Ei
Compendex, CAPus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Metallurgy and Metallurgical Engineering) /
CiteScore - Q1 (Metals and Alloys)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is
provided to authors approximately 18 days after
submission; acceptance to publication is undertaken in 2.6
days (median values for papers published in this journal in
the first half of 2025).
