Message from the Guest Editors

Dear Colleagues,

Electronics are extremely popular in our daily life. Semiconductors such as complementary metal oxide semiconductor (CMOS) and micro-electro-mechanical system (MEMS) are key devices in the electronic field. CMOS can be integrated with MEMS components within a single chip (3D integration) to produce compact and low-cost CMOS-MEMS devices for multiple applications (chemical sensing, energy harvesting, signal transmission, and others). Therefore, these devices' fabrication and integration are essential for the development of the society. This Special Issue aims to gather high quality research contributions dealing with MEMS devices integrated with CMOS, independently of fabrication technologies and final applications.

Deadline for manuscript

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Ai-Qun Liu

1. Department of Electrical and Electronic Engineering, The Hong Kong Polytechnic University, Hong Kong, China
2. School of Electrical and Electronic Engineering, Nanyang Technological University, Singapore 639798, Singapore

Message from the Editor-in-Chief

You are invited to contribute research articles or comprehensive reviews for consideration and publication in *Micromachines* (ISSN 2072-666X). *Micromachines* is published in the open access format. Research articles, reviews and other contents are released on the internet immediately after acceptance. The scientific community and the general public have unlimited free access to the content as soon as it is published. As an open access journal, *Micromachines* is supported by the authors or their institutes by payment of article processing charges (APC) for accepted papers. We are pleased to welcome you as our authors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Ei Compendex, dblp, and other databases.

Journal Rank: JCR - Q2 (*Physics, Applied*) / CiteScore - Q2 (*Mechanical Engineering*)
