### Message from the Guest Editor

Dear Colleagues,

This Special Issue focuses on recent advances in additive manufacturing processes, applications and technologies. There is a growing need to know determine the new industrial applications of AM, and identify the new materials that are being applied in the field. It is necessary to discover what the future trends of new technologies are. Each technology and each application sector present needs that must be considered, from the part's design, to the processing conditions of the same. Original research papers and review articles are invited for this Special Issue.

Dr. Santiago Ferrandiz

an Open Access Journal by MDPI

## Editor-in-Chief

### **Prof. Dr. Ai-Qun Liu**

1. Department of Electrical and Electronic Engineering, The Hong Kong Polytechnic University, Hong Kong, China  
2. School of Electrical and Electronic Engineering, Nanyang Technological University, Singapore 639798, Singapore

## Message from the Editor-in-Chief

You are invited to contribute research articles or comprehensive reviews for consideration and publication in *Micromachines* (ISSN 2072-666X). *Micromachines* is published in the open access format. Research articles, reviews and other contents are released on the internet immediately after acceptance. The scientific community and the general public have unlimited free access to the content as soon as it is published. As an open access journal, *Micromachines* is supported by the authors or their institutes by payment of article processing charges (APC) for accepted papers. We are pleased to welcome you as our authors.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Ei Compendex, dblp, and other databases.

**Journal Rank:** JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Mechanical Engineering)
