Special Issue

Organic Semiconductors and Devices, 2nd Edition

Message from the Guest Editor

Organic semiconductors are desirable, lightweight, and flexible materials for electronic applications. Significant merits of organic semiconductors include their chemical diversity, low-cost process fabrication, and compatibility with various substrates, including plastics, fiber substrates, and stretchable systems, which distinguish organic semiconductor-based devices from conventional devices. This Special Issue calls for research papers, reviews, and short communications related to state-of-the-art developments contributing to electronic devices based on organic semiconductors, including small molecules, polymers, and organic–inorganic hybrid materials.

About the Journal

Message from the Editor-in-Chief

You are invited to contribute research articles or comprehensive reviews for consideration and publication in *Micromachines* (ISSN 2072-666X). *Micromachines* is published in the open access format. Research articles, reviews and other contents are released on the internet immediately after acceptance. The scientific community and the general public have unlimited free access to the content as soon as it is published. As an open access journal, *Micromachines* is supported by the authors or their institutes by payment of article processing charges (APC) for accepted papers. We are pleased to welcome you as our authors.

Editor-in-Chief

Prof. Dr. Nam-Trung Nguyen
Queensland Quantum and Advanced Technologies Research Institute, Griffith University, West Creek Road, Nathan, QLD 4111, Australia

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Ei Compendex, dblp, and other databases.

Journal Rank:

JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Mechanical Engineering)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.8 days after submission; acceptance to publication is undertaken in 1.9 days (median values for papers published in this journal in the second half of 2025).
