

## Special Issue

# Laser Additive Manufacturing: Design, Materials, Processes and Applications, 2nd Edition

### Message from the Guest Editors

Following on from the success of the initial Special Issue on laser-based additive manufacturing (LAM), this second volume continues our exploration of the ever-advancing progress of the design, materials, processes and applications of LAM. LAM is a revolutionary advanced digital manufacturing and key strategic technology for technological innovation and industrial sustainability. This technology unlocks the constraints of traditional manufacturing and meets the needs of complex geometry fabrication and high-performance part fabrication. A deeper understanding of the design, materials, processes, structures, properties and applications of this technology is needed to produce novel functional devices, as well as defect-free structurally sound and reliable AM parts. This Special Issue aims to cover all the possible topics in this field, including macro- to micro-scale additive manufacturing with lasers, including structure design, fabrication, modeling and simulation; in situ characterization of additive manufacturing processes; and ex situ material characterization and performances, with an overview of various applications in aerospace, biomedicine, optics, etc.

### Guest Editors

Dr. Jie Yin

Dr. Yang Liu

Dr. Linda Ke

Dr. Kai Guan

### Deadline for manuscript submissions

closed (31 December 2023)

## About the Journal

### Message from the Editor-in-Chief

You are invited to contribute research articles or comprehensive reviews for consideration and publication in *Micromachines* (ISSN 2072-666X). *Micromachines* is published in the open access format. Research articles, reviews and other contents are released on the internet immediately after acceptance. The scientific community and the general public have unlimited free access to the content as soon as it is published. As an open access journal, *Micromachines* is supported by the authors or their institutes by payment of article processing charges (APC) for accepted papers. We are pleased to welcome you as our authors.

---

### Editor-in-Chief

Prof. Dr. Ai-Qun Liu

1. Department of Electrical and Electronic Engineering, The Hong Kong Polytechnic University, Hong Kong, China
2. School of Electrical and Electronic Engineering, Nanyang Technological University, Singapore 639798, Singapore

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Ei Compendex, dblp, and other databases.

#### Journal Rank:

JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Mechanical Engineering)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.2 days after submission; acceptance to publication is undertaken in 1.9 days (median values for papers published in this journal in the first half of 2025).
