

Special Issue

Multisensor Arrays

Message from the Guest Editors

We cordially invite you to contribute to a Special Issue of *Micromachines* entitled “Multisensor Arrays”. The development of sensors has become essential in a wide range of applications, including environmental and health monitoring, as well as in the pharmaceutical and food industries. This Special Issue aims to showcase a collection of manuscripts from scholars worldwide working on various aspects of multisensor systems development, from fundamental research to practical applications. In this Special Issue, original research articles and reviews are welcome. Research areas may include, but are not limited to, the following:

- Multisensor systems;
- Sensor arrays;
- Electronic tongues;
- Electronic noses;
- Chemical sensors;
- Biosensors;
- Hybrid sensor arrays;
- Food quality monitoring;
- Environmental monitoring;
- Health monitoring;
- Drugs/pharmaceutical applications;
- Data analysis;
- Multivariate data processing tools;
- Supervised and unsupervised methods;
- Embedded electronics.

About the Journal

Message from the Editor-in-Chief

You are invited to contribute research articles or comprehensive reviews for consideration and publication in *Micromachines* (ISSN 2072-666X). *Micromachines* is published in the open access format. Research articles, reviews and other contents are released on the internet immediately after acceptance. The scientific community and the general public have unlimited free access to the content as soon as it is published. As an open access journal, *Micromachines* is supported by the authors or their institutes by payment of article processing charges (APC) for accepted papers. We are pleased to welcome you as our authors.

Editor-in-Chief

Prof. Dr. Nam-Trung Nguyen

Queensland Quantum and Advanced Technologies Research Institute,
Griffith University, West Creek Road, Nathan, QLD 4111, Australia

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Ei Compendex, dblp, and other databases.

Journal Rank:

JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Mechanical Engineering)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.8 days after submission; acceptance to publication is undertaken in 1.9 days (median values for papers published in this journal in the second half of 2025).
