

Special Issue

Advanced Biomaterials, Biodevices, and Their Application

Message from the Guest Editors

This Special Issue, titled "Advanced Biomaterials, Biodevices, and Their Application", aims to highlight recent breakthroughs in the design, development, and deployment of biomaterials and biodevices across medical, environmental, and industrial fields. As interdisciplinary innovations accelerate, novel biomaterials—ranging from smart polymers and bioinspired composites to tissue scaffolds and regenerative matrices—are increasingly integrated with advanced biodevices, such as biosensors, wearable systems, and implantable technologies. This Special Issue will focus on the synthesis, functionalization, characterization, and application of cutting-edge biomaterials, as well as the engineering and clinical translation of biodevices. Contributions will cover experimental studies, theoretical modeling, and real-world applications that address critical challenges in healthcare (e.g., diagnostics, drug delivery, and regenerative medicine), sustainable development, and personalized therapy. We invite original research articles, reviews that explore new material–biodevice interfaces, scalable fabrication techniques, and emerging technologies, such as bioelectronics and soft robotics.

Guest Editors

Dr. Luis Jesús Villarreal-Gómez

Dr. Jose Manuel Cornejo-Bravo

Dr. Faruk Fonthal Rico

Deadline for manuscript submissions

30 June 2026

About the Journal

Message from the Editor-in-Chief

You are invited to contribute research articles or comprehensive reviews for consideration and publication in *Micromachines* (ISSN 2072-666X). *Micromachines* is published in the open access format. Research articles, reviews and other contents are released on the internet immediately after acceptance. The scientific community and the general public have unlimited free access to the content as soon as it is published. As an open access journal, *Micromachines* is supported by the authors or their institutes by payment of article processing charges (APC) for accepted papers. We are pleased to welcome you as our authors.

Editor-in-Chief

Prof. Dr. Ai-Qun Liu

Department of Electrical and Electronic Engineering, The Hong Kong Polytechnic University, Hong Kong, China

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Ei Compendex, dblp, and other databases.

Journal Rank:

JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Mechanical Engineering)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.2 days after submission; acceptance to publication is undertaken in 1.9 days (median values for papers published in this journal in the first half of 2025).
