# Micro/Nano Devices for Drug Delivery

## Message from the Guest Editors

Considering your prominent contribution in this research area, I would like to invite you to submit a high-quality original communication/full-length research article for this Special Issue that primarily exploits the micro/nano devices for drug delivery towards the enrichment of knowledge pertaining to it. Furthermore, this Special Issue intends to cover review articles that are focused on state- of-the-art for the design and synthesis of nano/micro devices, and strategies to facilitate the drug loading and release followed by assessment of toxicity in a physiological environment.

# **About the Journal**

# Message from the Editor-in-Chief

You are invited to contribute research articles or comprehensive reviews for consideration and publication in *Micromachines* (ISSN 2072-666X). *Micromachines* is published in the open access format. Research articles, reviews and other contents are released on the internet immediately after acceptance. The scientific community and the general public have unlimited free access to the content as soon as it is published. As an open access journal, *Micromachines* is supported by the authors or their institutes by payment of article processing charges (APC) for accepted papers. We are pleased to welcome you as our authors.

#### Editor-in-Chief

Prof. Dr. Ai-Qun Liu

Department of Electrical and Electronic Engineering, The Hong Kong Polytechnic University, Hong Kong, China

#### **Author Benefits**

## **High Visibility:**

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Ei Compendex, dblp, and other databases.

# **Journal Rank:**

JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Mechanical Engineering)

### **Rapid Publication:**

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.2 days after submission; acceptance to publication is undertaken in 1.9 days (median values for papers published in this journal in the first half of 2025).
