# Feature Reviews in Micromachines 2024

## Message from the Guest Editors

Many advances have been made in recent years in the fields of micromachines and microtechnology, and we believe that a state-of-the-art review of existing works will be a great reference for students, researchers and lecturers in both research and teaching related to micromachines. This Special Issue aims to collect high-quality review papers that include a brief retrospective overview and a broad state-of-the-art review of the topics within the scope of micromachines. The reviews will be published as fully open access after peer review to benefit both authors and readers. You are welcome to send short proposals for reviews to our Editorial Office (micromachines@mdpi.com) for evaluation before submission.

# **About the Journal**

# Message from the Editor-in-Chief

You are invited to contribute research articles or comprehensive reviews for consideration and publication in *Micromachines* (ISSN 2072-666X). *Micromachines* is published in the open access format. Research articles, reviews and other contents are released on the internet immediately after acceptance. The scientific community and the general public have unlimited free access to the content as soon as it is published. As an open access journal, *Micromachines* is supported by the authors or their institutes by payment of article processing charges (APC) for accepted papers. We are pleased to welcome you as our authors.
