

## Special Issue

# Advanced Wide Bandgap Semiconductor Materials and Devices

### Message from the Guest Editor

Dear Colleague, Advancements in the field of ultra-wide-bandgap (UWBG) semiconductors are swiftly expanding the horizon of technological possibilities, opening up novel avenues for exploration in electronics, photonics, detection systems, and quantum technology. Semiconductors like gallium oxide, aluminum gallium oxide, diamond, cubic-boron nitride, and aluminum gallium nitride, which boast bandgaps significantly wider than those of gallium nitride (3.4 eV) and silicon carbide (3.3 eV), are leading the charge in cutting-edge material science and the physics of semiconductor devices. We look forward to receiving your contributions.

---

### Guest Editor

Dr. Peng Li

Key Laboratory of UV-Emitting Materials and Technology, Ministry of Education, Northeast Normal University, Changchun 130024, China

## About the Journal

### Message from the Editor-in-Chief

You are invited to contribute research articles or comprehensive reviews for consideration and publication in *Micromachines* (ISSN 2072-666X). *Micromachines* is published in the open access format. Research articles, reviews and other contents are released on the internet immediately after acceptance. The scientific community and the general public have unlimited free access to the content as soon as it is published. As an open access journal, *Micromachines* is supported by the authors or their institutes by payment of article processing charges (APC) for accepted papers. We are pleased to welcome you as our authors.

---

### Editor-in-Chief

Prof. Dr. Nam-Trung Nguyen

Queensland Quantum and Advanced Technologies Research Institute,  
Griffith University, West Creek Road, Nathan, QLD 4111, Australia

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Ei Compendex, dblp, and other databases.

#### Journal Rank:

JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Mechanical Engineering)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.8 days after submission; acceptance to publication is undertaken in 1.9 days (median values for papers published in this journal in the second half of 2025).
