

## Special Issue

# Micro/Nanofluidics for Cell and Particle Manipulation

### Message from the Guest Editors

Manipulation techniques of micro/nanoparticles and cells have gained much attention in sample preparation and analysis for biological and clinical applications. Particularly, microfluidic techniques are widely used due to the advantages of fast processing time, small volume of samples and reagents, miniaturized size, and high accuracy at a reduced cost. Microfluidic particle/cell manipulation techniques are classified into two types: active and passive methods depending on the use of external force fields. In this Special Issue, a wide range of topics are covered, including the design and fabrication of novel microfluidic devices for particle/cell manipulation, numerical, and/or experimental analysis of microfluidic manipulation techniques, and applications of micro/nanofluidic techniques for biological and clinical applications.

### Guest Editors

Dr. Jeong Hun Nam

Department of Laboratory Medicine, College of Medicine, Korea University, Seoul, Korea

Dr. Hyunjung Lim

Department of Medical Sciences, College of Medicine, Korea University, Seoul 08307, Korea

### Deadline for manuscript submissions

closed (31 August 2022)

## About the Journal

### Message from the Editor-in-Chief

You are invited to contribute research articles or comprehensive reviews for consideration and publication in *Micromachines* (ISSN 2072-666X). *Micromachines* is published in the open access format. Research articles, reviews and other contents are released on the internet immediately after acceptance. The scientific community and the general public have unlimited free access to the content as soon as it is published. As an open access journal, *Micromachines* is supported by the authors or their institutes by payment of article processing charges (APC) for accepted papers. We are pleased to welcome you as our authors.

---

### Editor-in-Chief

Prof. Dr. Ai-Qun Liu

1. Department of Electrical and Electronic Engineering, The Hong Kong Polytechnic University, Hong Kong, China
2. School of Electrical and Electronic Engineering, Nanyang Technological University, Singapore 639798, Singapore

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Ei Compendex, dblp, and other databases.

#### Journal Rank:

JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Mechanical Engineering)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.2 days after submission; acceptance to publication is undertaken in 1.9 days (median values for papers published in this journal in the first half of 2025).
