Advanced Drug Delivery Devices

Message from the Guest Editor

Dear colleagues, Recent advances in biomaterials and micro/nanotechnology have led to the improvement of drug delivery devices, which are specialized tools for the delivery of a drug via a specific route of administration. Yet, such devices face some technological hurdles to fully achieve their potential. Novel drug delivery devices aim to deliver drugs in a spatiotemporal- and dosage-controlled manner, with a goal to address unmet medical needs, including effective delivery of biopharmaceuticals, targeted delivery to areas protected by barriers, localized delivery of potent drugs, and improved patient compliance. This Special Issue seeks to showcase research papers, short communications, and review articles that focus on (1) reservoir-based drug delivery devices, (2) implantable or transdermal drug delivery devices in a minimally invasive way, (3) devices to encapsulate therapeutic cells, and (4) novel materials and techniques related to drug delivery devices.

Guest Editor

Prof. Dr. Hirokazu Kaji

About the Journal

Message from the Editor-in-Chief

You are invited to contribute research articles or comprehensive reviews for consideration and publication in *Micromachines* (ISSN 2072-666X). *Micromachines* is published in the open access format. Research articles, reviews and other contents are released on the internet immediately after acceptance. The scientific community and the general public have unlimited free access to the content as soon as it is published. As an open access journal, *Micromachines* is supported by the authors or their institutes by payment of article processing charges (APC) for accepted papers. We are pleased to welcome you as our authors.

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Ei Compendex, dblp, and other databases.

Journal Rank:

JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Mechanical Engineering)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.8 days after submission; acceptance to publication is undertaken in 1.9 days (median values for papers published in this journal in the second half of 2025).
