

## Special Issue

# Electrokinetics in Micro-/nanofluidic Devices

### Message from the Guest Editor

Since soil scientists discovered electroosmosis and electrophoresis in packed soil under a DC electric field 200 years ago, electrokinetics has been actively studied and has provided a firm basis of splendid advancements for biomedical, environmental and energy applications. With the recent aid of micro-/nano-fabrication technologies, a number of new electrokinetic phenomena have been demonstrated using micro-/nano-fluidic platforms and directly applied for a new process that has never been achieved. This Special Issue will focus on the recent advancements of new electrokinetic phenomena in micro-/nano-fluidic devices, including fundamentals, various applications and fabrication technologies by soliciting showcase research papers, short communications, and perspective review articles. The main idea is to stimulate the community and to provide a unique collection of insightful works.

### Guest Editor

Prof. Sung Jae Kim

Department of Electrical and Computer Engineering, Seoul National University, Seoul, Korea

### Deadline for manuscript submissions

closed (1 August 2020)

## About the Journal

### Message from the Editor-in-Chief

You are invited to contribute research articles or comprehensive reviews for consideration and publication in *Micromachines* (ISSN 2072-666X). *Micromachines* is published in the open access format. Research articles, reviews and other contents are released on the internet immediately after acceptance. The scientific community and the general public have unlimited free access to the content as soon as it is published. As an open access journal, *Micromachines* is supported by the authors or their institutes by payment of article processing charges (APC) for accepted papers. We are pleased to welcome you as our authors.

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Ei Compendex, dblp, and other databases.

#### Journal Rank:

JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Mechanical Engineering)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.2 days after submission; acceptance to publication is undertaken in 1.9 days (median values for papers published in this journal in the first half of 2025).
