

Special Issue

Selected papers from the ICNNA 2019 and ICAFM 2019

Message from the Guest Editor

This Special Issue will publish selected papers from the 8th International Conference on Nanostructures, Nanomaterials and Nanoengineering 2019 (ICNNA 2019, Kyoto, Japan, 11–14 October 2019, <http://icnna.org>) and the 4th International Conference on Advanced Functional Materials (ICAFM 2019, Salt Lake City, UT, USA, 2–5 August, 2019, <http://icafm.org/>). We aim to collect expanded and high-quality conference papers from ICNNA 2019 and ICAFM 2019. Potential topics include, but are not limited to:

- Different methods for the growth of nanostructures
- Characterization of nanomaterials
- Organic, inorganic, and biomedical applications of nanomaterials and devices
- Different kinds and morphologies of nanostructures: metals and metal oxides of nanoparticle, nanowires and nanorod, carbon nanotube, and graphene
- Nanostructured thin films and coatings
- Nanocomposites
- Semiconductor and functional nanomaterials and devices
- Nanostructured ceramic
- Mechanical, thermal, electric, optical, and magnetic properties of nanomaterials
- Modification of nanomaterials
- Nanoengineering

Guest Editor

Prof. Dr. Hao Gong

About the Journal

Message from the Editor-in-Chief

You are invited to contribute research articles or comprehensive reviews for consideration and publication in *Micromachines* (ISSN 2072-666X). *Micromachines* is published in the open access format. Research articles, reviews and other contents are released on the internet immediately after acceptance. The scientific community and the general public have unlimited free access to the content as soon as it is published. As an open access journal, *Micromachines* is supported by the authors or their institutes by payment of article processing charges (APC) for accepted papers. We are pleased to welcome you as our authors.

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Ei Compendex, dblp, and other databases.

Journal Rank:

JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Mechanical Engineering)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.8 days after submission; acceptance to publication is undertaken in 1.9 days (median values for papers published in this journal in the second half of 2025).
