

## Special Issue

# Selected Papers from the ISTEGIM'19 – Thermal Effects in Gas flow in Microscale

### Message from the Guest Editors

This Special Issue will publish selected papers from the International Symposium on Thermal Effects in Gas flow in Microscale ISTEGIM 2019 - A MIGRATE Event (<http://www.istegim.eu/>), 24–25 October 2019, Ettlingen, Germany. MIGRATE ([www.migrate2015.eu](http://www.migrate2015.eu)) is a H2020 Marie Skłodowska-Curie European Training Network, intended to address some of the current challenges to innovation that faces European industry with regard to heat and mass transfer in gas-based micro-scale processes. The symposium topics include, but are not limited to:

- Multiphase Heat Transfer in Microstructures
- Gas-liquid contacting
- Modelling and simulation of flows and heat transfer in microstructures
- Gas Surface Interaction
- Gas Sensors and Sensor integration
- Non-invasive measurement techniques
- Lab-on-device systems
- Microsystems for bio- and environmental applications
- Thermally driven microflows
- Heat recovery and energy harvesting microsystems
- Flow and heat transfer through micro-nano porous media

---

### Guest Editors

Prof. Dr. Jürgen J. Brandner

Dr. Lucien Baldas

Prof. Dr. Gian Luca Morini

---

### Deadline for manuscript submissions

closed (29 February 2020)

## About the Journal

### Message from the Editor-in-Chief

You are invited to contribute research articles or comprehensive reviews for consideration and publication in *Micromachines* (ISSN 2072-666X). *Micromachines* is published in the open access format. Research articles, reviews and other contents are released on the internet immediately after acceptance. The scientific community and the general public have unlimited free access to the content as soon as it is published. As an open access journal, *Micromachines* is supported by the authors or their institutes by payment of article processing charges (APC) for accepted papers. We are pleased to welcome you as our authors.

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Ei Compendex, dblp, and other databases.

#### Journal Rank:

JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Mechanical Engineering)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.2 days after submission; acceptance to publication is undertaken in 1.9 days (median values for papers published in this journal in the first half of 2025).
