## Flexible and Wearable Physical Sensors

### Message from the Guest Editor

Flexible and wearable sensors have recently attracted increasing interest for the potentials of use from healthcare monitoring to human–machine interactions. The development of high-performance flexible sensors is the key to allowing the sensing system towards different application aspects. This Special Issue is dedicated to providing a platform in flexible and wearable physical sensors, including materials exploitation, structure design, and system build-up to application innovations. The list of topics includes but is not limited to:

- Flexible sensors;
- Pressure sensors;
- Stretchable devices;
- Wearable sensing technology;
- Human–machine interaction system;
- Functional sensing materials;
- New sensing mechanism and device designs;
- Fabrication methodologies.

## About the Journal

### Message from the Editor-in-Chief

You are invited to contribute research articles or comprehensive reviews for consideration and publication in *Micromachines* (ISSN 2072-666X). *Micromachines* is published in the open access format. Research articles, reviews and other contents are released on the internet immediately after acceptance. The scientific community and the general public have unlimited free access to the content as soon as it is published. As an open access journal, *Micromachines* is supported by the authors or their institutes by payment of article processing charges (APC) for accepted papers. We are pleased to welcome you as our authors.

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Ei Compendex, dblp, and other databases.

#### Journal Rank:

JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Mechanical Engineering)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.8 days after submission; acceptance to publication is undertaken in 1.9 days (median values for papers published in this journal in the second half of 2025).
