

## Special Issue

# Advances in Optofluidics: Devices and Systems

### Message from the Guest Editors

Optofluidics is a niche research area that integrates optics with microfluidics. It began with elegant demonstrations of the passive interaction of light and liquid media, such as liquid waveguides and liquid tunable lenses. Recently, the topic of optofluidics has continued to make progress in relation to liquid-based optical devices or systems. Furthermore, it has expanded rapidly into many other fields involving lightwaves (or photons) and liquid media. This Special Issue aims to include review articles, research articles, and communications that update the latest advances in various aspects of optofluidics, such as new functional devices, new integrated systems, new fabrication techniques, new applications, etc. Topics of interest in this Special Issue include (but are not limited to) micro-optics in liquid media, optofluidic sensors, integrated micro-optical systems, displays, in-fiber optofluidics, optofluidic manipulation, energy and environmental applications, and so on.

## About the Journal

### Message from the Editor-in-Chief

You are invited to contribute research articles or comprehensive reviews for consideration and publication in *Micromachines* (ISSN 2072-666X). *Micromachines* is published in the open access format. Research articles, reviews and other contents are released on the internet immediately after acceptance. The scientific community and the general public have unlimited free access to the content as soon as it is published. As an open access journal, *Micromachines* is supported by the authors or their institutes by payment of article processing charges (APC) for accepted papers. We are pleased to welcome you as our authors.

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Ei Compendex, dblp, and other databases.

#### Journal Rank:

JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Mechanical Engineering)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.2 days after submission; acceptance to publication is undertaken in 1.9 days (median values for papers published in this journal in the first half of 2025).
