

## Special Issue

# Biomedical Applications of Nanotechnology and Nanomaterials

### Message from the Guest Editors

Since the advent of nanotechnology, there has been a tremendous growth in this field of nano-bio-technology. In fact, numerous products introduced into the market are based on nano-bio-technology and are useful to environment monitoring, rapid diagnostics, diseases monitoring, diseases management, and personalized health care. The ultimate aim of this approach is to make a better and healthier tomorrow for everybody. Remarkable advancement in nanoscience and nanotechnology is the foundation and motivation to promote next-generation research from the laboratory to the field. Nano-enabled research has made technology with improved performances, especially easy operation and affordable. In this Special Issue, we aim to cover a wide range of nano-enabled systems and related biomedical applications in the field of biomedical science, including, but not limited to, the nano-thin-films and nanostructures of polymers, metals, their hybrids, etc.

---

### Guest Editors

Dr. Vinay Bhardwaj

Department of Biomedical Engineering, Rutgers University, Piscataway, NJ, USA

Dr. Ajeet Kaushik

Department of Natural Sciences, Division of Sciences, Arts & Mathematics (SAM), Florida Polytechnic University, Lakeland, FL 33805-8531, USA

## About the Journal

### Message from the Editor-in-Chief

You are invited to contribute research articles or comprehensive reviews for consideration and publication in *Micromachines* (ISSN 2072-666X). *Micromachines* is published in the open access format. Research articles, reviews and other contents are released on the internet immediately after acceptance. The scientific community and the general public have unlimited free access to the content as soon as it is published. As an open access journal, *Micromachines* is supported by the authors or their institutes by payment of article processing charges (APC) for accepted papers. We are pleased to welcome you as our authors.

### Editor-in-Chief

Prof. Dr. Ai-Qun Liu

1. Department of Electrical and Electronic Engineering, The Hong Kong Polytechnic University, Hong Kong, China
2. School of Electrical and Electronic Engineering, Nanyang Technological University, Singapore 639798, Singapore

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Ei Compendex, dblp, and other databases.

#### Journal Rank:

JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q2 (Electrical and Electronic Engineering)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.2 days after submission; acceptance to publication is undertaken in 1.8 days (median values for papers published in this journal in the second half of 2024).
