

Special Issue

Hybrid Materials for Advanced Sensing and Controlled Release Applications

Message from the Guest Editor

The aim of this Special Issue is to highlight recent advances in all aspects relevant to hybrid delivery systems, for controlled release, and for sensing applications, with a focus on design, synthesis and performance, and their implementation into different platforms for on-site sensing applications. For that purpose, scientists are encouraged to contribute their research to this Special Issue of *Micromachines*, dedicated to the development of Hybrid Materials for Advanced Sensing and Controlled Release Applications.

- Hybrid materials
- Nanocontainers
- Gated hybrid materials
- Advanced drug delivery systems
- Targeted delivery
- Controlled release applications
- Hybrid materials for sensing

About the Journal

Message from the Editor-in-Chief

You are invited to contribute research articles or comprehensive reviews for consideration and publication in *Micromachines* (ISSN 2072-666X). *Micromachines* is published in the open access format. Research articles, reviews and other contents are released on the internet immediately after acceptance. The scientific community and the general public have unlimited free access to the content as soon as it is published. As an open access journal, *Micromachines* is supported by the authors or their institutes by payment of article processing charges (APC) for accepted papers. We are pleased to welcome you as our authors.

Editor-in-Chief

Prof. Dr. Ai-Qun Liu

1. Department of Electrical and Electronic Engineering, The Hong Kong Polytechnic University, Hong Kong, China

2. School of Electrical and Electronic Engineering, Nanyang Technological University, Singapore 639798, Singapore

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Ei Compendex, dblp, and other databases.

Journal Rank:

JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Mechanical Engineering)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.2 days after submission; acceptance to publication is undertaken in 1.9 days (median values for papers published in this journal in the first half of 2025).
