

Special Issue

Microfluidics in Analytical Chemistry

Message from the Guest Editor

This Special Issue of *Micromachines*, titled “Microfluidics in Analytical Chemistry”, hopes to cover all aspects of microfluidic systems applied in analytical chemistry, original research and reviews papers to be considered for publication. Detection strategies, sample processing, advances in instrumentation and methods, fluid control, the integration of analytical steps, parallel processing, new microfabrication strategies, and sensor development are some examples of fields of interest, as well as welcoming the applications of microfluidic devices and sensors regarding bioanalysis, cell sorting and counting, environmental analysis, remote monitoring, point-of-care, wearable sensors, etc. We look forward to receiving your contribution to this Special Issue! Keywords

- microfluidic devices
- sensors
- micro total analysis systems
- optical detection
- fluorescence detection
- electrochemical detection
- microfabrication
- 3D printing
- point-of-care devices
- wearable sensors

Guest Editor

Prof. Dr. José Alberto Fracassi da Silva
Chemistry Institute, State University of Campinas, Campinas, Brazil

Deadline for manuscript submissions

About the Journal

Message from the Editor-in-Chief

You are invited to contribute research articles or comprehensive reviews for consideration and publication in *Micromachines* (ISSN 2072-666X). *Micromachines* is published in the open access format. Research articles, reviews and other contents are released on the internet immediately after acceptance. The scientific community and the general public have unlimited free access to the content as soon as it is published. As an open access journal, *Micromachines* is supported by the authors or their institutes by payment of article processing charges (APC) for accepted papers. We are pleased to welcome you as our authors.

Editor-in-Chief

Prof. Dr. Nam-Trung Nguyen

Queensland Quantum and Advanced Technologies Research Institute,
Griffith University, West Creek Road, Nathan, QLD 4111, Australia

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Ei Compendex, dblp, and other databases.

Journal Rank:

JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Mechanical Engineering)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.8 days after submission; acceptance to publication is undertaken in 1.9 days (median values for papers published in this journal in the second half of 2025).
