Message from the Guest Editors

This Special Issue seeks to showcase research papers, and review articles that focus on the intersection of microfluidics and biodetection/sensing technologies, with particular interest being paid to detection and sensing technologies that are favorable for integration into microfluidics devices. Novel contributions that demonstrate clever approaches in any of the above listed research areas with integration in sight are also welcome. Keywords

- Biodetection
- Sensors
- Electronics
- Point-of-Care
- Environmental monitoring
- Microfluidics
- MEMS
- Miniaturisation
- Automated detection systems
