

Fungal Biology and Interactions 2.0

Guest Editors:

Prof. Dr. Renato Graciano de Paula

Department of Physiological Sciences, Health Sciences Centre, Federal University of Espírito Santo, Vitória 29047-105, ES, Brazil

Prof. Dr. Roberto Nascimento Silva

Department of Biochemistry and Immunology, Ribeirão Preto Medical School, University of São Paulo, Ribeirão Preto 14049-900, SP, Brazil

Message from the Guest Editors

Interactions involving fungi are of fundamental importance to human life and in biotechnological processes. Thus, in this Special Issue on "Fungal Biology and Interactions", we aim to present new research and trends regarding fungi–fungi, fungi–plants, fungi–environment, and fungi–microbial community interactions. Articles to be submitted should address basic biology, molecular interactions, cell signaling, pathogen–host relationships, climate change, biofuels and biomaterials, and sustainable agriculture.

Reviews, original research, and communications are welcome.

Deadline for manuscript submissions:

31 July 2024

an Open Access Journal by MDPI

Message from the Editor-in-Chief

"Microorganism" merges the idea of the very small with the idea of the evolving reproducing organism is a unifying principle for the discipline of microbiology. Our journal recognizes the broadly diverse yet connected nature of microorganisms and provides an advanced publishing forum for original articles from scientists involved in high-quality basic and applied research on any prokaryotic or eukaryotic microorganism, and for research on the ecology, genomics and evolution of microbial communities as well as that exploring cultured microorganisms in the laboratory.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, PubAg, CAPlus / SciFinder, AGRIS, and other databases.

Journal Rank: JCR - Q2 (*Microbiology*) / CiteScore - Q2 (*Microbiology (medical)*)
