Recent Advances in Cryptococcus and Cryptococcosis

Guest Editors:

Dr. Carolina Firacative

School of Medicine and Health Sciences, Universidad del Rosario, Bogotá, Colombia

Prof. Dr. Wieland Mever

Westmead Institute for Medical Research, The University of Sydney, Sydney, Australia

Dr. Luciana Trilles

Tecnologista em Saúde Pública, Fundação Oswaldo Cruz, Rio de Janeiro 21040-900, RJ, Brazil

Deadline for manuscript submissions:

closed (31 January 2023)

Message from the Guest Editors

Dear Colleagues,

The Special Issue "Recent Advances in Cryptococcus and Cryptococcosis" aims to provide an update on the most current studies on the pathogenesis, virulence factors, antifungal susceptibility, and population genetics of *C. neoformans* and *C. gattii*, as well as on the epidemiology, clinical aspects, diagnosis, and treatment of cryptococcosis, both through reviews and original research articles.

Message from the Editor-in-Chief

"Microorganism" merges the idea of the very small with the idea of the evolving reproducing organism is a unifying principle for the discipline of microbiology. Our journal recognizes the broadly diverse yet connected nature of microorganisms and provides an advanced publishing forum for original articles from scientists involved in high-quality basic and applied research on any prokaryotic or eukaryotic microorganism, and for research on the ecology, genomics and evolution of microbial communities as well as that exploring cultured microorganisms in the laboratory.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC,

PubAg, CAPlus / SciFinder, AGRIS, and other databases.

Journal Rank: JCR - Q2 (Microbiology) / CiteScore - Q1 (Microbiology (medical))
