submissions:
closed (31 May 2023)

Message from the Guest Editors

Dear Colleagues,

We are pleased to announce the launch of a new Topical Collection entitled “Advances in Tick-Borne Diseases Research”. This Topical Collection aims to gather up-to-date reviews and recent original research findings in TBD, including ecology, epidemiology, etiologic agents, pathogenesis, clinical presentation, diagnosis, treatment, outcome, and prevention. We consider that this collection will be the best forum for disseminating excellent research findings as well as sharing innovative ideas in the field.

Prof. Dr. Franc Strle

Prof. Dr. Gerold Stanek

Message from the Editor-in-Chief

"Microorganism" merges the idea of the very small with the idea of the evolving reproducing organism is a unifying principle for the discipline of microbiology. Our journal recognizes the broadly diverse yet connected nature of microorganisms and provides an advanced publishing forum for original articles from scientists involved in high-quality basic and applied research on any prokaryotic or eukaryotic microorganism, and for research on the ecology, genomics and evolution of microbial communities as well as that exploring cultured microorganisms in the laboratory.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, PubAg, CAPlus / SciFinder, AGRIS, and other databases.

Journal Rank: JCR - Q2 (*Microbiology*) / CiteScore - Q2 (*Microbiology (medical)*)
