

Special Issue

The Phage: Biology and Therapeutic Use

Message from the Guest Editors

This special edition of "*Microorganisms*", entitled "The Phage: Biology and Therapeutic Use" is intended to contain both reviews and original articles focussed on the emerging data in the field, and on supporting the viability of this approach in an area with real unmet need. With invited articles contributed by experts from around the world, it is intended to form a valuable resource for both workers in the field and curious newcomers to the sometimes abstruse field of bacteriophages, their biology, and the emerging potential for their therapeutic use.

Guest Editors

Prof. Dr. Richard James

School of Life Sciences, University of Nottingham, Nottingham, UK

Dr. David R. Harper

Evolution Biotechnologies, Sharnbrook, UK

About the Journal

Message from the Editor-in-Chief

"Microorganism" merges the idea of the very small with the idea of the evolving reproducing organism is a unifying principle for the discipline of microbiology. Our journal recognizes the broadly diverse yet connected nature of microorganisms and provides an advanced publishing forum for original articles from scientists involved in high-quality basic and applied research on any prokaryotic or eukaryotic microorganism, and for research on the ecology, genomics and evolution of microbial communities as well as that exploring cultured microorganisms in the laboratory.

Editor-in-Chief

Dr. Nico Jehmlich

Department of Molecular Toxicology, UFZ-Helmholtz Centre for
Environmental Research, 04318 Leipzig, Germany

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, PubAg, CAPlus / SciFinder, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Microbiology) / CiteScore - Q1 (Microbiology (medical))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 15.2 days after submission; acceptance to publication is undertaken in 2.9 days (median values for papers published in this journal in the first half of 2025).
