

Special Issue

Advances in Veterinary Microbiology—2nd Edition

Message from the Guest Editor

This Special Issue is a continuation of our previous edition, “[Advances in Veterinary Microbiology](#)”. The Special Issue aims to compile high-quality research and review articles across all fields of veterinary microbiology, seeking to highlight frontier research in food microbiology through selected works. We welcome [Editorial Board Members](#) of the [Veterinary Microbiology Section](#) of *Microorganisms* to contribute papers on the latest progress in their research field or invite relevant experts and colleagues to do so. Topics include, but are not limited to, the following:

- African swine fever virus;
- Bluetongue virus;
- Arboviruses;
- Microbiota;
- Metagenomics;
- Brucellosis.

About the Journal

Message from the Editor-in-Chief

"Microorganism" merges the idea of the very small with the idea of the evolving reproducing organism is a unifying principle for the discipline of microbiology. Our journal recognizes the broadly diverse yet connected nature of microorganisms and provides an advanced publishing forum for original articles from scientists involved in high-quality basic and applied research on any prokaryotic or eukaryotic microorganism, and for research on the ecology, genomics and evolution of microbial communities as well as that exploring cultured microorganisms in the laboratory.

Editor-in-Chief

Dr. Nico Jehmlich

Department of Molecular Toxicology, UFZ-Helmholtz Centre for
Environmental Research, 04318 Leipzig, Germany

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, PubAg, CAPlus / SciFinder, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Microbiology) / CiteScore - Q1 (Microbiology (medical))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 15.2 days after submission; acceptance to publication is undertaken in 2.9 days (median values for papers published in this journal in the first half of 2025).
