

Special Issue

Poultry Pathogens and Poultry Diseases

Message from the Guest Editors

The Special Issue, entitled "Poultry Pathogens and Poultry Diseases", aims to increase our knowledge by sharing the latest research in these areas. Its focal points include, but are not limited to, the following:

- Works on avian diseases relevant to etiology, pathogenesis, diagnosis, treatment, and control;
- Basic or clinical research on poultry pathogens and avian diseases from various disciplines including microbiology, immunology, pathology, and epidemiology including molecular epidemiology and phylogenetic relationships as well as host–pathogen interaction;
- Zoonotic pathogen and disease spread between poultry and people;
- Reemerging and emerging infectious poultry pathogens and diseases.

Reviews, original research articles, and short communications are welcome for submission.

Guest Editors

Prof. Dr. Renfu Yin

Key Laboratory of Zoonosis Research, Ministry of Education, College of Veterinary Medicine, Jilin University, Xi'an Road 5333, Changchun 130062, China

Prof. Dr. Aleksandar Dodovski

Faculty of Veterinary Medicine–Skopje, Ss. Cyril and Methodius University in Skopje, Lazar Pop Trajkov 5-7, 1000 Skopje, Macedonia

Deadline for manuscript submissions

closed (31 March 2024)

About the Journal

Message from the Editor-in-Chief

"Microorganism" merges the idea of the very small with the idea of the evolving reproducing organism is a unifying principle for the discipline of microbiology. Our journal recognizes the broadly diverse yet connected nature of microorganisms and provides an advanced publishing forum for original articles from scientists involved in high-quality basic and applied research on any prokaryotic or eukaryotic microorganism, and for research on the ecology, genomics and evolution of microbial communities as well as that exploring cultured microorganisms in the laboratory.

Editor-in-Chief

Dr. Nico Jehmlich

Department of Molecular Toxicology, UFZ-Helmholtz Centre for
Environmental Research, 04318 Leipzig, Germany

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, PubAg, CAPlus / SciFinder, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Microbiology) / CiteScore - Q1 (Microbiology (medical))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 15.2 days after submission; acceptance to publication is undertaken in 2.9 days (median values for papers published in this journal in the first half of 2025).
