

Special Issue

HTLV Infection and Associated Neurological Diseases

Message from the Guest Editors

The following Special Issue explores the role of HTLV-1 and HTLV-2 in neurological diseases. Although they have been recognized since the 1980s and a considerable amount has been learned about their epidemiology, pathogenesis, and neurological manifestations, many aspects remain unclear and deserve further exploration. This Special Issue welcomes original research articles, reviews, and perspectives. Research areas may include various aspects of these viruses' involvement in developing human neurological diseases. New insights and original studies on their epidemiology, neuropathogenesis, pathology, clinical manifestations, and new therapeutic approaches will be given favorable consideration for publication.

Guest Editors

Dr. Abelardo de Queiroz Campos Araujo

Instituto de Neurologia Deolindo Couto, Universidade Federal do Rio de Janeiro, Rio de Janeiro, Brazil

Dr. Marcus Tullius Teixeira da Silva

Laboratório de Pesquisa Clínica em Neuroinfecção, Instituto Nacional de Doenças Infecciosas, Fundação Oswaldo Cruz, Rio de Janeiro, Brazil

Deadline for manuscript submissions

31 October 2025

About the Journal

Message from the Editor-in-Chief

"Microorganism" merges the idea of the very small with the idea of the evolving reproducing organism is a unifying principle for the discipline of microbiology. Our journal recognizes the broadly diverse yet connected nature of microorganisms and provides an advanced publishing forum for original articles from scientists involved in high-quality basic and applied research on any prokaryotic or eukaryotic microorganism, and for research on the ecology, genomics and evolution of microbial communities as well as that exploring cultured microorganisms in the laboratory.

Editor-in-Chief

Dr. Nico Jehmlich

Department of Molecular Toxicology, UFZ-Helmholtz Centre for
Environmental Research, 04318 Leipzig, Germany

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, PubAg, CAPlus / SciFinder, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Microbiology) / CiteScore - Q1 (Microbiology (medical))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 15.2 days after submission; acceptance to publication is undertaken in 2.9 days (median values for papers published in this journal in the first half of 2025).
