

Special Issue

Advances in Cryptococcus and Cryptococcosis, 2nd Edition

Message from the Guest Editor

This Special Issue invites researchers and experts to submit their valuable original research articles, reviews, and perspectives that cover a wide range of topics within the field of Cryptococcus and cryptococcosis, including, but not limited to, the following:

- Cryptococcus biology, morphology, and genomics;
- Virulence factors and pathogenic mechanisms of Cryptococcus species;
- Epidemiology and global distribution of cryptococcal infections;
- Diagnostic methods, including molecular and serological approaches;
- Antifungal drug development and treatment strategies;
- Host–pathogen interactions and immune responses in cryptococcosis;
- Cryptococcal meningitis and central nervous system infections;
- Emerging trends in the study of Cryptococcus and novel therapeutic approaches.

Guest Editor

Dr. Nuria Trevijano-Contador

Mycology Reference Laboratory, National Centre for Microbiology, Instituto de Salud Carlos III, Carretera Majadahonda-Pozuelo, 28222 Madrid, Spain

Deadline for manuscript submissions

closed (30 November 2024)

About the Journal

Message from the Editor-in-Chief

"Microorganism" merges the idea of the very small with the idea of the evolving reproducing organism is a unifying principle for the discipline of microbiology. Our journal recognizes the broadly diverse yet connected nature of microorganisms and provides an advanced publishing forum for original articles from scientists involved in high-quality basic and applied research on any prokaryotic or eukaryotic microorganism, and for research on the ecology, genomics and evolution of microbial communities as well as that exploring cultured microorganisms in the laboratory.

Editor-in-Chief

Dr. Nico Jehmlich

Department of Molecular Toxicology, UFZ-Helmholtz Centre for Environmental Research, 04318 Leipzig, Germany

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, PubAg, CAPlus / SciFinder, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Microbiology) / CiteScore - Q1 (Microbiology (medical))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 20 days after submission; acceptance to publication is undertaken in 2.9 days (median values for papers published in this journal in the second half of 2025).
