

Special Issue

Accelerated Topics in Public Health Microbiology and Microbial Food Safety

Message from the Guest Editor

Ensuring the safety of the public against natural and anthropogenic pathogens of public health concern is a daunting task and a moving target, requiring innovative solutions and the implementation of preventive and evidence-based policies and regulations. The current Special Issue is dedicated to innovative and high-quality original laboratory studies, epidemiological research, commentary articles, and systematic reviews and meta-analyses. There is a special emphasis on microbial food safety, water safety, environmental health, the study of infectious diseases under a One Health model, and the investigation of climate-sensitive infectious diseases.

Guest Editor

About the Journal

Message from the Editor-in-Chief

"Microorganism" merges the idea of the very small with the idea of the evolving reproducing organism is a unifying principle for the discipline of microbiology. Our journal recognizes the broadly diverse yet connected nature of microorganisms and provides an advanced publishing forum for original articles from scientists involved in high-quality basic and applied research on any prokaryotic or eukaryotic microorganism, and for research on the ecology, genomics and evolution of microbial communities as well as that exploring cultured microorganisms in the laboratory.

Editor-in-Chief

Dr. Nico Jehmlich

Department of Molecular Toxicology, UFZ-Helmholtz Centre for
Environmental Research, 04318 Leipzig, Germany

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, PubAg, CAPlus / SciFinder, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Microbiology) / CiteScore - Q1 (Microbiology (medical))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 15.2 days after submission; acceptance to publication is undertaken in 2.9 days (median values for papers published in this journal in the first half of 2025).
