

## Special Issue

# Ebola, Herpetic Eye Disease, and Ocular Complications of Emerging Infectious Diseases

### Message from the Guest Editor

This Special Issue, titled “Ebola, Herpetic Eye Disease, and Ocular Complications of Emerging Infectious Diseases”, explores challenges and advancements in the prevention and treatment of emerging infectious diseases. This Special Issue features several research articles that investigate the epidemiology, diagnosis, and treatment of Ebola virus disease, herpetic eye disease, and other emerging infectious diseases. Overall, this Special Issue, “Ebola, Herpetic Eye Disease, and Ocular Complications of Emerging Infectious Diseases”, highlights challenges and advancements in the prevention and treatment of emerging infectious diseases. The research presented in this Special Issue highlights the need for global collaboration in addressing these challenges. keywords: Eebola; herpetic eye disease; emerging infectious diseases; prevention and treatment

## About the Journal

### Message from the Editor-in-Chief

"Microorganism" merges the idea of the very small with the idea of the evolving reproducing organism is a unifying principle for the discipline of microbiology. Our journal recognizes the broadly diverse yet connected nature of microorganisms and provides an advanced publishing forum for original articles from scientists involved in high-quality basic and applied research on any prokaryotic or eukaryotic microorganism, and for research on the ecology, genomics and evolution of microbial communities as well as that exploring cultured microorganisms in the laboratory.

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, PubAg, CAPlus / SciFinder, AGRIS, and other databases.

#### Journal Rank:

JCR - Q2 (Microbiology) / CiteScore - Q1 (Microbiology (medical))

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 15.2 days after submission; acceptance to publication is undertaken in 2.9 days (median values for papers published in this journal in the first half of 2025).
