

Special Issue

Latest Review Papers in Plant Microbe Interactions 2024

Message from the Guest Editors

This Special Issue aims to collect high-quality review papers in all the fields of plant microbe interactions. We encourage researchers from related fields to contribute review papers highlighting the latest developments in plant microbe interactions, or to invite relevant experts and colleagues to do so. Full-length comprehensive reviews will be preferred. The topics include, but are not limited to:

- Disease protection;
- Endophytes;
- Endosymbiosis;
- Epiphytes;
- Lichens;
- Mycorrhizae;
- Nitrogen fixation;
- Pathogens;
- Pathogenesis;
- Phosphate solubilization;
- Rhizobacteria;
- Rhizophagy cycle;
- Stress tolerance;
- Symbiosis.

Guest Editors

Prof. Dr. Nikolay Vassilev

Department of Chemical Engineering, and Institute of Biotechnology, Faculty of Sciences, University of Granada, c/Fuente Nueva s/n, E-18071 Granada, Spain

Prof. Dr. Essaid Ait Barka

Research Unit Induced Resistance and Plant Bioprotection, University of Reims, EA 4707 USC INRAE 1488, SFR Condorcet FR CNRS 3417, 51100 Reims, France

Deadline for manuscript submissions

closed (31 December 2024)

About the Journal

Message from the Editor-in-Chief

"Microorganism" merges the idea of the very small with the idea of the evolving reproducing organism is a unifying principle for the discipline of microbiology. Our journal recognizes the broadly diverse yet connected nature of microorganisms and provides an advanced publishing forum for original articles from scientists involved in high-quality basic and applied research on any prokaryotic or eukaryotic microorganism, and for research on the ecology, genomics and evolution of microbial communities as well as that exploring cultured microorganisms in the laboratory.

Editor-in-Chief

Dr. Nico Jehmlich

Department of Molecular Toxicology, UFZ-Helmholtz Centre for
Environmental Research, 04318 Leipzig, Germany

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, PubAg, CAPlus / SciFinder, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Microbiology) / CiteScore - Q1 (Microbiology (medical))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 15.2 days after submission; acceptance to publication is undertaken in 2.9 days (median values for papers published in this journal in the first half of 2025).
