

# Special Issue

## Host–Biofilm Interactions 2.0

### Message from the Guest Editors

This Special Issue is the continuation of our previous special issue "[Host–Biofilm Interactions](#)". **Overall Aim:** This Special Issue aims to explore fundamental aspects of host–biofilm interactions, including but not limited to:

- Defining and quantifying host-associated biofilms
- Stages of colonization
- Infectious biofilms
- Symbiotic biofilm–host interactions
- Biological and bioinformatics methods for studying host-associated biofilm communities
- Adhesins and toxins
- 3D organization of host-associated communities
- Biofilm–host communication
- Co-feeding and metabolic networks in host-associated biofilm communities

---

### Guest Editors

Dr. Ilana Kolodkin-Gal

Department of Plant Pathology and Microbiology, The Hebrew University of Jerusalem, Rehovot 7610001, Israel

Prof. Dr. Yun Chen

College of Agriculture and Biotechnology, Zhejiang University, Hangzhou, China

---

### Deadline for manuscript submissions

closed (15 December 2023)

## About the Journal

### Message from the Editor-in-Chief

"Microorganism" merges the idea of the very small with the idea of the evolving reproducing organism is a unifying principle for the discipline of microbiology. Our journal recognizes the broadly diverse yet connected nature of microorganisms and provides an advanced publishing forum for original articles from scientists involved in high-quality basic and applied research on any prokaryotic or eukaryotic microorganism, and for research on the ecology, genomics and evolution of microbial communities as well as that exploring cultured microorganisms in the laboratory.

---

### Editor-in-Chief

Dr. Nico Jehmlich

Department of Molecular Toxicology, UFZ-Helmholtz Centre for  
Environmental Research, 04318 Leipzig, Germany

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, PubAg, CAPlus / SciFinder, AGRIS, and other databases.

#### Journal Rank:

JCR - Q2 (Microbiology) / CiteScore - Q1 (Microbiology (medical))

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 15.2 days after submission; acceptance to publication is undertaken in 2.9 days (median values for papers published in this journal in the first half of 2025).
