

Special Issue

Oral Microorganisms and Biofilm

Message from the Guest Editor

We are excited to introduce the Special Issue “Oral Microorganisms and Biofilms”. This is dedicated to unraveling the complex interplay between oral microorganisms and biofilms, as well as their pivotal role in oral health and disease. Our focus extends to the antimicrobial effects on oral biofilms, the intricate processes of remineralization and demineralization in early caries, and the advancement of oral healthcare strategies aimed at preventing oral diseases. We invite researchers and clinicians to contribute their latest findings and insights, fostering a multidisciplinary dialogue that bridges the gap between basic science and clinical practice. This Special Issue aims to shed light on innovative research and emerging technologies that have the potential to revolutionize our understanding and management of oral biofilms and their impact on oral health.

About the Journal

Message from the Editor-in-Chief

"Microorganism" merges the idea of the very small with the idea of the evolving reproducing organism is a unifying principle for the discipline of microbiology. Our journal recognizes the broadly diverse yet connected nature of microorganisms and provides an advanced publishing forum for original articles from scientists involved in high-quality basic and applied research on any prokaryotic or eukaryotic microorganism, and for research on the ecology, genomics and evolution of microbial communities as well as that exploring cultured microorganisms in the laboratory.

Editor-in-Chief

Dr. Nico Jehmlich

Department of Molecular Toxicology, UFZ-Helmholtz Centre for
Environmental Research, 04318 Leipzig, Germany

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, PubAg, CAPlus / SciFinder, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Microbiology) / CiteScore - Q1 (Microbiology (medical))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 15.2 days after submission; acceptance to publication is undertaken in 2.9 days (median values for papers published in this journal in the first half of 2025).
