

# Special Issue

## State-of-the-Art Antimicrobial Agents and Resistance Research in France

### Message from the Guest Editors

This Special Issue is designed to offer a comprehensive overview of the latest advancements in antimicrobial agents and resistance within France. We warmly invite France researchers from related fields to submit papers that highlight recent developments in this area.

Contributions may include original research articles and comprehensive reviews. We also encourage the invitation of relevant experts and colleagues to contribute, ensuring a diverse and cutting-edge collection of work. This Special Issue aims to showcase the innovative research being conducted in France and provide a platform for further advancements in the field of antimicrobial agents and resistance.

## About the Journal

### Message from the Editor-in-Chief

"Microorganism" merges the idea of the very small with the idea of the evolving reproducing organism is a unifying principle for the discipline of microbiology. Our journal recognizes the broadly diverse yet connected nature of microorganisms and provides an advanced publishing forum for original articles from scientists involved in high-quality basic and applied research on any prokaryotic or eukaryotic microorganism, and for research on the ecology, genomics and evolution of microbial communities as well as that exploring cultured microorganisms in the laboratory.

---

### Editor-in-Chief

Dr. Nico Jehmlich

Department of Molecular Toxicology, UFZ-Helmholtz Centre for  
Environmental Research, 04318 Leipzig, Germany

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, PubAg, CAPlus / SciFinder, AGRIS, and other databases.

#### Journal Rank:

JCR - Q2 (Microbiology) / CiteScore - Q1 (Microbiology (medical))

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 15.2 days after submission; acceptance to publication is undertaken in 2.9 days (median values for papers published in this journal in the first half of 2025).
