

Special Issue

Bacteria and Fungi Probiotics

Message from the Guest Editors

In general, probiotics are represented as a potential alternative for antibiotics to control and prevent the spread of pathogenic bacteria. This Special Issue aims to collect research or review articles related to bacteria and fungi probiotics of different origin with a focus on the antimicrobial peptides (AMP) of probiotics. We look forward to receiving your contributions. Related International Congress: The international related congress entitled “One Health International Days 2022” (<https://ohid-2022.univ-lille.fr/>), from 27 to 29 June 2022, at the campus of Villeneuve d’Ascq (University of Lille), France, will welcome 100 to 200 experienced and young international researchers working on the transdisciplinary topics of the holistic “One Health” approach, with applications in several areas (environmental health, plant health, animal health, human health).

About the Journal

Message from the Editor-in-Chief

"Microorganism" merges the idea of the very small with the idea of the evolving reproducing organism is a unifying principle for the discipline of microbiology. Our journal recognizes the broadly diverse yet connected nature of microorganisms and provides an advanced publishing forum for original articles from scientists involved in high-quality basic and applied research on any prokaryotic or eukaryotic microorganism, and for research on the ecology, genomics and evolution of microbial communities as well as that exploring cultured microorganisms in the laboratory.

Editor-in-Chief

Dr. Nico Jehmlich

Environmental Research, 04318 Leipzig, Germany

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, PubAg, CAPlus / SciFinder, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Microbiology) / CiteScore - Q1 (Microbiology (medical))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 15.2 days after submission; acceptance to publication is undertaken in 2.9 days (median values for papers published in this journal in the first half of 2025).
