

# Special Issue

## Selected Papers from ECFG15 - 15th European Conference on Fungal Genetics

### Message from the Guest Editors

Session 2 of [ECFG15](#) will focus on several aspects of fungal host interactions and their control. This Special Issue invites authors to submit their contributions regarding animal–fungi interactions, plant–fungi interactions, and aspects of antifungals and fungicides related to understanding the mechanism underlying the pathogenicity and the means for controlling diseases in different hosts.

---

### Guest Editors

Prof. Dr. Massimo Reverberi

Dr. Scala Valeria

Dr. Ivan Baccelli

Dr. Marina Collina

Dr. Andrea Peano

## About the Journal

### Message from the Editor-in-Chief

"Microorganism" merges the idea of the very small with the idea of the evolving reproducing organism is a unifying principle for the discipline of microbiology. Our journal recognizes the broadly diverse yet connected nature of microorganisms and provides an advanced publishing forum for original articles from scientists involved in high-quality basic and applied research on any prokaryotic or eukaryotic microorganism, and for research on the ecology, genomics and evolution of microbial communities as well as that exploring cultured microorganisms in the laboratory.

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, PubAg, CAPlus / SciFinder, AGRIS, and other databases.

#### Journal Rank:

JCR - Q2 (Microbiology) / CiteScore - Q1 (Microbiology (medical))

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 15.2 days after submission; acceptance to publication is undertaken in 2.9 days (median values for papers published in this journal in the first half of 2025).
