Special Issue

Advances in Parvovirus Infection of Pets and Waterfowl

Message from the Guest Editor

This Special Issue of *Microorganisms* aims to provide a scientific platform for scientists performing fundamental and applied research related to parvoviruses. This Special Issue of *Microorganisms* will include original research, short communications, and reviews on parvoviruses, which focus on the discovery and characterization of new parvoviruses, epidemiology, virus structure, genome composition, replication mechanism, genetic characterization, phylogeny, detection methods, parvovirus interactions with host cells, etc. In addition, some papers describing applied research in vaccines and antiviral biological products, including cytokines and antibodies, as well as diagnostic preparations, are also encouraged.

About the Journal

Message from the Editor-in-Chief

"Microorganism" merges the idea of the very small with the idea of the evolving reproducing organism is a unifying principle for the discipline of microbiology. Our journal recognizes the broadly diverse yet connected nature of microorganisms and provides an advanced publishing forum for original articles from scientists involved in high-quality basic and applied research on any prokaryotic or eukaryotic microorganism, and for research on the ecology, genomics and evolution of microbial communities as well as that exploring cultured microorganisms in the laboratory.

Editor-in-Chief

Dr. Nico Jehmlich

Department of Molecular Toxicology, UFZ-Helmholtz Centre for Environmental Research, 04318 Leipzig, Germany

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, PubAg, CAPlus / SciFinder, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Microbiology) / CiteScore - Q1 (Microbiology (medical))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 15.2 days after submission; acceptance to publication is undertaken in 2.9 days (median values for papers published in this journal in the first half of 2025).
