

Special Issue

Food Fermentations

Message from the Guest Editors

Fermented foods constitute a great part of diets from all around the world. In the last decade, there has been an increasing consumer trend towards healthy foods, and fermented foods are very popular considering their enhanced nutritional properties and positive impact on the human gut via probiotic bacteria delivery.

This Special Issue aims to contribute to the current knowledge in the field, and to provide the food industry with new insights into the development of value-added fermented foods products. Articles focusing on various aspects of food by-product utilization to recover valuable components are also welcomed. Keywords:

- yeasts
- fungi
- lactic acid bacteria
- bioactive molecules
- fermented food and gut microbiota
- food ingredients
- food products
- health benefits
- agro food waste

About the Journal

Message from the Editor-in-Chief

"Microorganism" merges the idea of the very small with the idea of the evolving reproducing organism is a unifying principle for the discipline of microbiology. Our journal recognizes the broadly diverse yet connected nature of microorganisms and provides an advanced publishing forum for original articles from scientists involved in high-quality basic and applied research on any prokaryotic or eukaryotic microorganism, and for research on the ecology, genomics and evolution of microbial communities as well as that exploring cultured microorganisms in the laboratory.

Editor-in-Chief

Dr. Nico Jehmlich

Department of Molecular Toxicology, UFZ-Helmholtz Centre for Environmental Research, 04318 Leipzig, Germany

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, PubAg, CAPlus / SciFinder, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Microbiology) / CiteScore - Q1 (Virology)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 20 days after submission; acceptance to publication is undertaken in 2.9 days (median values for papers published in this journal in the second half of 2025).
